

October 2017

As we enter the fall season, and start getting ready for the holidays, let's all take a moment to think about all the victims of the recent storms. Our chapter will make a contribution to assist the victims to restore their lives and businesses during these difficult times.

Chapter members were treated to a tour of the Avedis Zildjian Manufacturing facility in Norwell MA on September 13, 2017.

We not only learned the history of the cymbal manufacturing company, but of the importance of cymbals throughout history both as an instrument of military movement and as an instrument of musical pleasure.

Many thanks to the staff of Avedis Zildjian for opening their doors to our chapter and also to Tom Perkins of Perkins Foundry for putting it together.

Our next Chapter meeting will take place on Tuesday October 10, 2017 at the Publick House in Sturbridge, MA.

Our speaker will be Will Shambley of The Metalfish LLC and his topic will be: **“Foundries of the Future”**

Will Shambley was the co-founder and President of Viridis3D and introduced the first robotic 3D printer to the foundry market. His presentation will cover the new foundry technologies that are now available such as 3D scanning, printing and robotic machining. If you want to remain competitive in the industry you really need to embrace the new methods and technologies that are being introduced.

This is a dinner meeting starting promptly at 5:00 P.M., the cost of the dinner meeting is \$35.00 and there will be a cash bar available.

If you plan on attending please let me know so we have an accurate headcount for the restaurant.

Welcome and many thanks to David Gill, Project Manager and PE at TRC Solutions for signing on to serve as a Board member, we look forward to his input and assistance in the coming years.

As always we are looking for new board members, new officers and new ideas for upcoming meetings so please feel free to share the newsletter with prospective members.

Don't forget to look us up on our facebook page or our website www.newenglandafs.com

Thanks for your continued support,
Ed Marczyszak
Chairman
